March 2009 Edition 1

First Quarter 09 News from AIS

From the AIS team, welcome to the first edition of the AIS news for 2009. We hope you have all had a very relaxing Christmas break and are looking forward to the year ahead. Through our news bulletins we intend to keep you informed of any changes to our services and up coming events.

Southern Cross Healthcare

In the later part of 2008 AIS became an affiliated provider to Southern Cross Healthcare. This listing offers your patients who are Southern Cross members very competitive pricing for all CBCT scans provided by AIS. The staff at AIS can also action a pre approval of your patients scan cost at the time of them making the booking. This takes all the hassle of claiming away from your patients.

AIS Web Site Launched

*AIS has launched its new web site www.see-more.co.nz . The site allows you the opportunity to review all the features of the scan information that can be provided by our Vision software. The site allows you to walk through the process with text and video clips explaining each screen. You can also review on line or download referral sheets, price lists and other relevant information. **LOG ON TO** www.see-more.co.nz and see more for yourself.*

2009 Dental Expo

*Don't forget to pencil into your diary the following dates **18th to 20th June 2009** to attend the **Dental Expo at ASB Showgrounds Auckland**. For further information log on to www.dentalexpo.co.nz. See you there at stand 172.*

Radiology Reporting Service

As from January 2009 AIS have the ability to provide a Radiology reporting service. The service offers a three day turn round from the date of the scan being taken to the report being provided. For further information on this service please contact Jacqui on 09 552-7198.

Software Upgrade

During the Christmas break we were busy installing and testing the latest upgrade to our Vision software. The new software continues to allow AIS to enhance our services and quality of output. With the upgrade AIS can now offer a limited measurement service for those practitioners doing implants. For more information please contact Jacqui on 09 552-7198.
